

IFFPSS Fellowship rules

Certain special rules apply to graduate fellows of the IFFPSS who are taking the June 14-15, 2008, ABFPRS examination to fulfill IFFPSS Fellowship educational requirements. IFFPSS fellowship applicants must sit for the examination the year the fellowship is completed unless a written request for deferment is granted by the IFFPSS Credentials Committee. The IFFPSS Credentials Committee may grant deferment two times.

Upon passing the examination, IFFPSS fellowship candidates have up to five years to accumulate the minimum number of points for training/experience to complete requirements for IFFPSS Unified International Certification. To be considered for certification this year, a completed application must be postmarked no later than December 15, 2007. An IFFPSS graduate fellow does not receive certification until he/she has completed all requirements.
